The ICPSR Summer Program offers rigorous, hands-on training in statistics, quantitative methods, and data analysis.

- Introductory statistics, Regression analysis
- Maximum likelihood estimation
- Bayesian analysis, Time series, Network analysis, and more

Open to students, faculty, researchers, and policy-makers at University of South Carolina. To view our full schedule and register, visit icpsr.umich.edu/sumprog or use the QR code at left.

SUMMER PROGRAM CURRICULUM

- **Four-Week Sessions**
  Provide an immersive experience for learning statistics and quantitative methods while developing professional relationships with students and researchers from around the world. Held in Ann Arbor, Michigan, the First Session will be held from June 20 - July 15, and the Second Session will be held from July 18 - August 12.

- **Three- to Five-Day Workshops**
  Offer short workshops for those who need to learn a specific technique or method in a few days. More than 35 short workshops in Ann Arbor, MI, and other cities across the US. Run from May through August 2016 on network analysis, lab and field experiments, data reproducibility and transparency, Bayesian analysis, text analytics, mixed methods, qualitative methods, spatial econometrics, and regression discontinuity designs.

SUMMER PROGRAM SCHOLARSHIPS

ICPSR offers discounted fees for participants from ICPSR member institutions and several fee-waiver ICPSR scholarships. Additionally, some external organizations provide scholarships and financial support. University of South Carolina members of ICPSR are eligible to apply for scholarships.

QUESTIONS?
Contact the ICPSR Summer Program at sumprog@icpsr.umich.edu or (734) 763-7400.

UNIVERSITY OF SOUTH CAROLINA MEMBERSHIP
ICPSR membership is free to students, faculty, and staff at University of South Carolina. For more information on how to create your account, please see the reverse of this flyer.
ICPSR is an international consortium of more than 750 academic institutions and research organizations that maintains an online data archive of more than 500,000 files of research in the social sciences and 16 special collections.

Through ICPSR you have access to specialized collections and research archives. The organization also provides leadership and training in data access, curation, and methods of analysis for the social science research community.

**ICPSR @ University of South Carolina**

University of South Carolina maintains an active membership with ICPSR. Faculty, researchers, and students at the University can open an individual account to gain access to:

- ICPSR data and article searches
- Publication partner archive databases
- Online data compare and analysis
- Citation guides and data management plans
- Quantitative research training and support

**Get an ICPSR/University Research Account**

If you are faculty or a student at University of South Carolina, you can create an ICPSR account.

**To set up your account, you must be logged into the University network using Your University network user name and ID.** ICPSR identifies you as a member of the University of South Carolina community through the University network.

1. Go to: [http://www.icpsr.umich.edu](http://www.icpsr.umich.edu)
2. Click on Membership at ICPSR
3. In the top left of the next page, click on Log In/Create Account
   - For new users: scroll down to New User and click on Create Account
   - Fill out the information on the Create a New Account page.
   - Click Submit. You will see a verification page with the information you put into the account. Click on Proceed to Your Original Destination.
4. In the top left of the ICPSR page, click on Log In/Create Account.
5. Type in the information you used for your email and password into the Returning User section. You will now be logged in to ICPSR and can begin your research!

Once you create an account, you can log into ICPSR from anywhere in the world! Just log in on campus every six months to reauthenticate your account.

For more information, visit the ICPSR website at [icpsr.umich.edu](http://www.icpsr.umich.edu)
